ZIMO'S™

FUN AND EDUCATION FOR THE NEW GENERATION

ZIMO'S has come about with the realization that many parents worldwide cannot afford the luxury of owning computers (whether they are computer literate or not) and other modern technologies that are educationally beneficial to their children.

Many parents, beleaguered by the days duties do not possess the energy required to convene with their children and revise their (the children) day's activities. Added to that the fact that education meted out to children today and that of yesteryear contrast starkly and thus, most of the time, the parents are not equipped to assist their children with homework, cannot answer their children's persistent shower of questions. It is a palpable frustration both child and parent have to endure.

The routine scenario that greets a child everyday after school dulls their intellect, is not beneficial and might erase all of which they had learnt earlier that very same day. More and more children are falling into the automaton-like trance of visual games.

It was with these factors that eventually led us to believe something had to be contravened against this vacuous state every child assumes when bored. Hence ZIMO'S has been invented.

After an entire year of laborious research and much hard work, the fruits reaped assumed the form of ZIMO'S. It was designed to take the mundane procedures of school and present education in such a way as to inspire children to learn more.

Thus it was made to evoke FUN AND EDUCATION FOR THE NEW GENERATION.

It was fashioned in such a way as to include parents, teachers, friends and family to participate and interact at the same time in this stimulating educational game. Not only is education dominant but the camaraderie and coalition of family or friends also plays a significant role.

ZIMO'S is the ultimate substitute for South Africa's abundant under privileged areas, as they are ones to gain the bulk of what ZIMO'S is able to offer incorporating the clean fun education will bring about.

ZIMO'S™

FUN AND EDUCATION FOR THE NEW GENERATION

HOW DOES ZIMO'S BENEFIT THE CHILD?

INTERACTION

- The reason for interaction is to enable children from a young age to mix freely with others and communicate in a respectable manner.
- Being a team player
- Learning to share
- Quick thinking
- Concentration
- Have fun!

WRITING

Enclosed in the ZIMO'S package is writing pads to help teach the child to write as instructed by the various cards.

READING

Bonus cards are there to assist the child to read.

MATHEMATICS

A category of cards called "numbers and sums" serves to educate the child as far as numbers and mathematical operations such as addition and subtraction are concerned.

GENERAL KNOWLEDGE

A category of cards called "general" is formulated to enhance the general knowledge that a child is supposed to possess.

ENGLISH LANGUAGE

A category of cards called "letters and words" has been designed to assist the child to identify the different letters and also to spell various words applicable.

LIFE SKILLS

Life skills are an important factor in the growth of a child. The "life skills" cards are essential to teach the child the values of life.

ZIMO'S ™

FUN AND EDUCATION FOR THE NEW GENERATION

WHERE WILL ZIMO'S HELP THE CHILD?

MAIN LANGUAGE

- Willingness to talk
- Speak clearly
- Answer questions
- Write simple sentences
- Recognise and identify the single sounds of the alphabet
- Be a confident reader
- Know the days of the week
- Know the months of the year
- Know the seasons
- Listen attentively
- Follow directions carefully
- Convey messages
- Know sight words
- Read fluently
- Answer questions orally or in writing
- Spells correctly words often used

ELEMENTARY MATHS

- Count forwards
- Count backwards
- Recognise numerals
- Write numerals
- Recognise symbols
- Know less/more than
- Know equals to
- Halving
- Doubling
- Grouping
- Set out work logically
- Do addition
- Do subtraction
- Show 0 to 5
- Show 0 to 10
- Show 0 to 20
- Do mental sums
- Know shapes

GENERAL REMARKS

- Have good manners
- Share with others
- Be self reliant
- Show initiative
- Work and play with others
- Be helpful
- Show consideration for others
- Be responsible
- Observe to solve problems
- Use memory to solve problems
- Take out apparatus
- Put away apparatus
- Finish tasks
- Self control
- Willingness to try
- Willingness to try again
- Learn whilst having fun

QUESTIONNAIRE

KINDLY FILL IN THE QUESTIONNAIRE AS SOON AS THE CHILD/LEARNER/ EDUCATOR HAS PLAYED THE GAME.

PLEASE TICK THE APPROPRIATE COLUMN.

		YES	NO
1	DID THE CHILD/LEARNER ENJOY THE GAME?	✓	
2	WERE THE QUESTIONS RELEVANT & APPROPRIATE?	✓	
3	DO YOU THINK THAT THE CHILD/LEARNER WILL BENEFIT FROM THIS GAME?	✓	
4	WILL THIS GAME HELP TO DEVELOP THE CHILD'S SKILLS IN LITERACY, NUMERICS & LIFE SKILLS?	✓	
5	WOULD YOU RECOMMEND THIS GAME TO OTHERS?	✓	

GENERAL COMMENTS : Pas pragtig in by ons huidige onderwysstelsel. Sinvolle vrae wat baie goed inskakel by die onderdomsgroep wat geteiken word. Die dobbelsteentjie se kleur is besig om af te gaan. Kyk miskien na beter kwaliteit daas. Die "awards" moet miskien meer makliku uitvoerbare takies + belonings wees. Ek wens u alle sukses toe met hierdie oulike speletjie. 'n Afrikaanse stel sal wonderlik wees!

Sir

FUN AND EDUCATIONAL GAME

These questions are based on the schools Outcomes Based Education to fit in for all ability levels from age 4 upwards.

Learners are able to learn in a fun-filled, exciting, thought-provoking, stimulating and adventurous way. This is an experience not to be missed! Everyone can participate and progress. Learners will not have the opportunity to be bored with the game.

The game is very stimulating, not only the children but grown ups too. The questions are very clear, short and child friendly.

Yours faithfully

Dear Sir

FUN AND EDUCATIONAL GAME

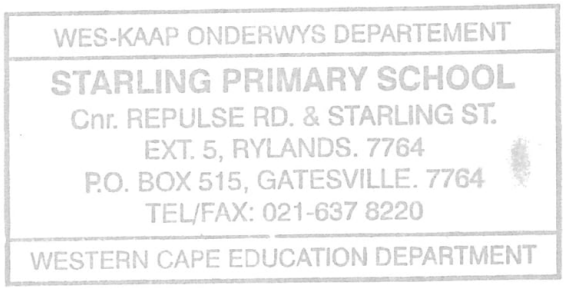

On behalf of the educators, learners, members of the governing body and parents of the above school, I take this opportunity to congratulate and compliment you on your latest innovation, namely Zimo's Fun and Educational game.

Your latest invention has added new dimension to education. Educators and learners of the above school had the opportunity to use your game and found it really "fun and educational".
All the questions are relevant and pertinent. Most important of all, learners enjoy learning in a fun way. Learners learn the appropriate subject matter in a very informal manner - thus learning without stress! This assists the educator tremendously in the classroom. It has also proved to be a valuable tool especially with learners who work fast and complete their work before other learners.

In conclusion, I would like to reiterate that this game has really made learning fun and easy.

I wish you every success in your future venture and may your project grow from strength to strength.

Yours faithfully

R Rajkumar - MANAGER

TO WHOM IT MAY CONCERN

RE: COMMENTS WITH REGARD TO ZIMO'S, THE FUN AND EDUCATIONAL GAME.

1. The game has proven to be educational
2. The children definitely learn through play: The first player did not recognise the Δ shape. The third player could say it was a "triangle". When it was the first player's turn again she could recognise the shape and say the word.
3. We don't do formal phonics as yet, but it was amazing to see how the learners could say the sounds they heard thus far.
4. The scorekeeper enjoyed her job. She seemed very confident. Counting was important, because she had to say which team was the winner. "Interaction and Communication"; Writing
5. Questions like "What is the name of your school" was also a good way of assessing the child.
6. Playing and throwing the dice was exciting because it gave the children the opportunity to familiarise themselves with the numbers.
7. Concentration was of importance for the next player to play.
8. The learners really enjoyed the game.

Thank you.

REPORT ON PUPIL'S RESPONSE TO ZIMO'S™

I played this game with 45 learners who were divided into 6 groups. It was therefore a bit difficult to keep their attention. It should work if the group is much smaller. If the learners are to play on their own, they would have to be able to read & many 4 to 7 years olds have not aquired enough reading skills to read the cards. The pupils enjoyed the game & children will benefit from it as their reading skills, general knowledge & problem solving skills will improve.

Dear Sir / Madam

(Re-Fun and Educational Game)

Herewith,the above educational institution wishes to extend compliments all those who contributed to the innovative Educational Fun Game namely,Zimo.

One can never over-emphasize the dire need for cognitive developmental resources.

DARUL ISLAM
PRIMARY SCHOOL
EST. 2000

Zimo,ties in perfectly with all three major Learning Areas of Outcomes Based Education for the Foundation Phase,namely,Literacy,Numeracy and Life Orientation.Since the approach is largely dependant on acquiring of skills,this perfect resource offers a variety.

Good Luck

Yours Sincerely

I (T. CASANT)
